Case Management Services	Baby and Me! (BAM) 8 week participants as well as BAM2 participants are included in this section.	30	We had 128 distinct clients come through our program. We do not include their multiple visits in this number but rather the number of clients who took advantage of our pregnancy or post partum services.	128

Challenges:

Comments: We have seen a large increase in both referrals from current clients but also in abortion vulnerable/determined women. This coincides with us unleashing a huge targeted internet marketing campaign with Yellow Pages and also redesigning our web page. Internet marketing continues to play a key role in our successfully reaching the abortion determined woman.
